"Learning to be the best we can be."

Kia ora koutou Silverstream whanau

In several newsletters we've tried to highlight how crucial a **rich curriculum** is for our children. They all need their place to shine and find their love of learning. With all the sports, cultural and arts events **jam-packed into this term** we know Silverstream kids are getting every opportunity to shine.

The production is one of those magic events that truly challenges and extends ALL of our children. The production is about **perseverance, creativity, innovation, problem solving, teamwork, timing, concentration, discipline, challenge, excitement and fun!**

If your child is getting **anxious about the production** and finds these kinds of events very challenging then it is more crucial for them to persevere, than children who take it in their stride. The production is **a chance for them to experience the nerves, worry and concern in a safe and controlled environment**. They get the opportunity to try **coping strategies** and experience the elation of success and conquering their fears.

Far better that they learn these strategies now than in less supported or more demanding teenage years.

It's going to be another fantastic show- **don't miss it!**
